San Jacinto River Waste Pits Superfund Site

Underwater inspections by the EPA Dive Team started this week and are continuing. No final determinations have been made by the Dive Team. The assessment work is on-going. Repairs are underway on armored layer of the cap continue. The need for any additional repairs in the area the Dive Team is inspecting has not been determined. The security cameras have not been restored and repairs are on-going.

Awesome, thanks for sending. This has been helpful.

Can Region 6 confirm a dive team is onsite at the San Jacinto River Waste Pits? Does Region 6 have any concerns about remediation actions taken by PRPs at this **or** at other Superfunds post-Harvey?

Thanks again,
Jackie

We have a story map on our website. One of the pages is a map of Superfund sites.

Thanks David! So this is a list of Superfunds impacted by Harvey?

Am I right there's no map you guys have of this list?

Subject: Press re: Harvey and Superfund sites

Hi all,

Hope your week's going well so far.

I'm working on a CQ Magazine article on the impacts of Hurricanes Harvey and Irma on Superfund sites.

As a starter - any chance Region 6 has a map of Superfund sites EPA inspected prior to Harvey and/or a map of Superfund sites that were impacted by Harvey?

Is someone available to talk by phone this week about ongoing remediation activities at the sites since the storm?

Thanks in advance and best,
Jackie Toth
